

# AN AWARD WINNING RANGE OF POSTAL SCALES...

▲ Model TP2000

*Featuring*

**Price updating**

User programming of new prices and weights to save cost. Alternatively the scale can be completely updated by fitting a new microchip to cope with any complex changes.

**User programme keys \***

These allow customers to key in special rates or independent carrier rates. Frequently used combinations of keys may also be programmed onto one "macro" key.

**Display**

Full weight, price and description of service with country code. This doubles as a "prompt" for operator assistance.

**Services**

A complete range of inland and overseas letters and parcels. All models are sensitive enough to handle light airmail to heavy parcels in the one unit.

**Rate Shopping \***

All units display a cheaper service or price if available.

**Keyboard \***

The unique keyboard has been designed to allow the easy updating of text, cheaply and neatly with no messy "stickers".

**Item Counting \***

The scales are accurate to a fraction of a gram and can be used for counting leaflets, envelopes, coins or other small items.

**T50**

Dual goods pans with automatic switching according to loading.

**Interfacing**

All units can be interfaced with most models of franker but first check with your supplier to confirm compatibility. We can also link with printers or remote displays.

\*These features are not available on the TP2000

| Total weight      | 7kg   |
| Change in rates   | Via keyboard, or can still be changed via new microchip                         |

**APPROVALS**    **CE** + EMC approved.  
ISO 9001:2000 cert. no. 10976

### EXPORT SCALES

The full range of scales will have the keyboard text, language & software prepared to suit the postal rates for that country, in co-operation with our dealer. Complete flexibility available on layout & number of user keys.

### INTERFACE

We can interface to frankers, printers or PC's in co-operation with our dealer.

We have been manufacturing postal scales for some 20 years and have been delighted with the quality and accuracy of this latest range. All quality assurance processes comply with our ISO 9001:2000 manual and we have been suppliers to HM Business Supplies, Inland Revenue, MOD and many others. All UK customers have full service coverage 'in house' since we sell/service nationally or via local dealers.

N.B. Specification in this leaflet subject to change without notice, as part of our programme of continuous improvement.
