

Durable and versatile, the AIP is a compact, high-speed dot matrix printer. AIP features solid ABS plastic construction and is simple to use, as it operates with only an on/off switch and a paper feed button. The printer connects with any device that contains RS-232 or USB interface, and automatically detects a scale's settings for speedy communication. Powered by adapter or rechargeable battery, the AIP is easily portable and works even when electricity is unavailable. Set-up software included with the printer is compatible with Windows operating systems, including Windows XP, Windows 7, Windows 8 and Windows 10. The printer uses 57mmX50mm paper and supports a variety of languages.

## Simple operation, speedy connectivity and multiple language capability
