

## 2985-SX BANKNOTE COUNTER

PROFESSIONAL COUNTING, VALIDATION AND SORTING

CIS

NEW  
£ READY

100%  
TESTED  
bankofengland.co.uk

The Safescan 2985-SX is your ultimate tool for easy and effective counting, validation and sorting of banknotes, offering professional-grade mixed-note counting and counterfeit detection. Featuring a dual-pocket design and CIS technology, it will value-count even the most advanced currencies, such as those printed on polymer, those that have transparent windows and those whose denominations have nearly identical dimensions. Designed for high-volume use, the 2985-SX is ideal for businesses that need fast, error-free counting for multiple currencies and proven 100% accurate banknote authentication. Save time and eliminate all chance of error. The 2985-SX's spacious hopper can hold 300 banknotes, and three adjustable speeds provide you with maximum counting flexibility, reliability and efficiency—up to 1200 notes per minute.

- Counts sorted notes for all currencies plus unsorted GBP/EUR/USD/CHF notes
- 8-point counterfeit detection, UV, MG, MT, infrared, color, image, size and thickness
- 4 default currencies for checking and counting: GBP, EUR, USD, CHF. Other currencies will be available soon.
- 100% counterfeit money detection ([www.ecb.int](http://www.ecb.int), [www.bankofengland.co.uk](http://www.bankofengland.co.uk))
- Dual pocket design: suspected counterfeit banknotes are placed in the reject pocket whilst counting continues
- Automatic currency and denomination recognition
- Counts GBP, EUR and USD in a mix, no need to sort per currency in advance
- Sorts, orients and faces banknotes in 2 stackers using advanced CIS technology
- Supports serial number scanning
- Suitable for Polymer banknotes & new Europa series banknotes

VALUE COUNTING FOR MIXED EUR, GBP, USD, CHF BANKNOTES

DOUBLE POCKET CONFIGURATION

BATCH FUNCTION, TO CREATE FIXED SERIES OF A PRE-SET NUMBER OF BANKNOTES
