SAFESCAN 6165

MONEY COUNTING SCALE

INTRODUCTION

This Quick Install Guide helps you to get started with your Safescan 6165 and describes the basic functions for counting coins and banknotes. For more detailed operating instructions of the Safescan 6165 please see the full user manual, available to download at www.safescan.com. We strongly recommend you to download and save a copy of this full user manual on your computer for future reference.

To download the full user manual from www.safescan.com, please go to the Safescan 6165 product page in the "Online Shop" and select the tab "Downloads", or go to the Customer Service section, select 'Downloads" in the "Service & Contact" menu and use the product finder to select the downloads for the Safescan 6165.

DISPLAY AND BUTTONS

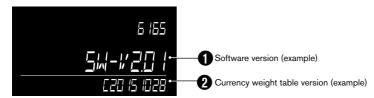

1. PLACING YOUR SAFFSCAN 6165

2. FIRST TIME USE

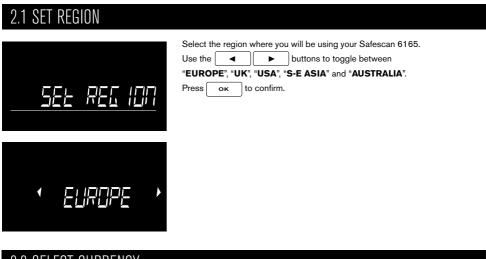

EUR

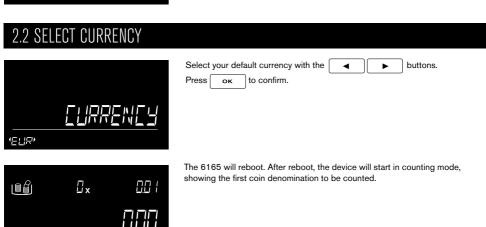

When starting up your Safescan 6165, the screen shows some important information:

Software version and Currency weight table version numbers may change due to continuous improvements, added features or currency updates. Check **www.safescan.com** regularly for availability of new software updates.

During the first startup, the machine will ask for some settings, which will be set for future use:

3. DEVICE MENU AND OPERATION

This chapter describes the operation of the Safescan 6165, as well as the menu structure of the device.

3.1 GENERAL OPERATION

When a certain action is required or when several options are possible, the buttons can be used to navigate. When navigation is possible or when a choice has to be made in the menu, the screen will show 2 blinking arrows. For example:

The 2 blinking arrows indicate that you can navigate between available menu items

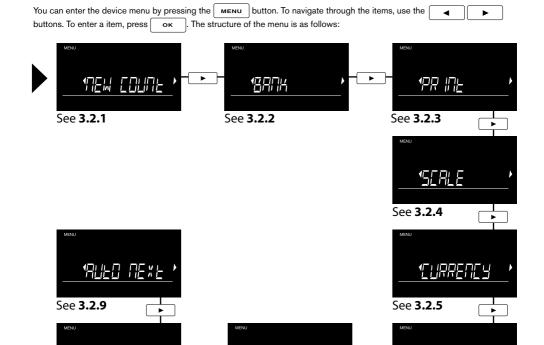

3.2 MENU STRUCTURE

The 2 blinking arrows indicate that you have to select a number.

A selection can be confirmed by pressing the ok button. To go 1 step back in the menu, press the ce button.

See 3.2.6

See 3.2.7

See 3.2.8

3.2 MENU STRUCTURE

3.2.1 NEW COUNT

The text will start blinking.

Press οκ again to confirm.

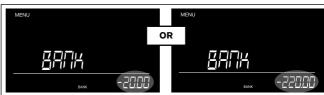

The machine will go back to the count screen, which is fully set back to zero.

3.2.2 BANK

When you want to set a bank amount, press the OK button when the BANK screen is shown.

You can choose from the pre-set bank amounts by using

Press

OK to confirm.

For entering larger bank amounts, long press on the buttons. While pressing, the amount will go up automatically. Press ok to confirm.

The count screen will show the set amount as negative start result.

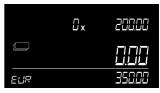

3.2.3 PRINT

When you connected a Safescan TP-230 printer, you can print your results by pressing $\mathbf{o}_{\mathbf{K}}$

The screen will show PRINTING, while the printout is created.

The machine will go back to the count screen.

3.2.4 SCALE

To activate the weighing scale function, press oĸ.

The screen will now change to weiging mode.

You can now weigh items with an accuracy of 0.05 gram.

You can tare the weighing scale by pressing ok when the default item, like a cup, has been placed. A '*x' will show in the screen and the value will change back to zero. Once the default item is removed, it's weight will show as a negative value.

3.2.5 CURRENCY

When you want to change the currency, press OK when the CURRENCY screen is shown.

The active currency is now shown, with 2 blinking arrows. Use
to navigate to the desired currency.

After pressing OK, the machine will now go back to the count screen, showing the chosen currency.

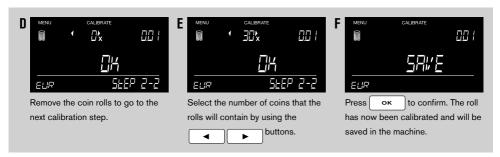

3.2.6 CALIBRATE

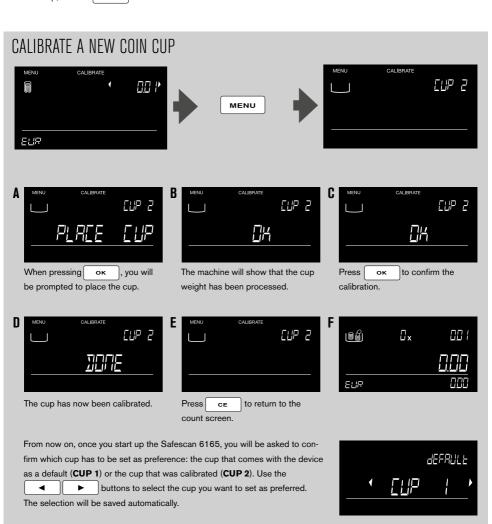

The Safescan 6165 is also able to count coin rolls and a 2nd coin cup. To enter the calibration mode, press ok when the **CALIBRATE** screen is shown. When in calibration mode, use the buttons no navigate to the desired denomination.

The calibration process works as follows:

The calibration menu will now move to the next denomination. Repeat the process by selecting the desired denomination as shown above, or leave the calibration mode by pressing ce If you want to switch to the next calibration item, the coin cup, use the MENU button.

3.2.7 SET DEVICE

When the **SET DEVICE** screen is shown, you can change several device settings.

Press ok to enter this menu item. When in the SET DEVICE mode, use the buttons to navigate through the sub-items.

The sequence is as follows: TIME-DATE > BACK TO DEFAULT > UPDATE FIRMWARE > SET REGION > SET CALIBRATION

A. TIME AND DATE SETTING

Press ok to start the TIME-DATE setting process.

Switch between 12 hour and 24 hour format by using

to confirm.

B. BACK TO FACTORY DEFAULT SETTING

Press oκ to reset the machine to factory defaults.

NOTE: By choosing this reset option, all customized settings such as calibrated items will be deleted and all basic settings will have to be made from the start.

C. UPDATE FIRMWARE

Press or to update the firmware. **See the full manual** for a detailed description of this setting.

D. REGION SETTING

Navigate through the regions and press ok to confirm.

E. CALIBRATION OF THE DEVICE

Press ok to re-calibrate the machine. **See the full manual** for a detailed description of this setting.

3.2.8 AUTO ADD

By activating the **AUTO ADD** function, the amount of a counted denomination is automatically added to the total counting result once the items are removed from the platform. When this function is switched off, you have to press or add the amount to the total.

Switch between ON and OFF by using

and press

ok

to confirm.

3.2.8 AUTO NEXT

screen is shown.

By activating the **AUTO NEXT** function, the machine automatically switches to the next denomination once the items are removed from the platform. When this function is switched off, you have to use to move to the next denomination.

To activate or de-activate the function, press $\bigcirc_{\mathbf{OK}}$ when the **AUTO NEXT**

Switch between ON and OFF by using

and press ок
 to confirm.

The machine will move back to the count screen.

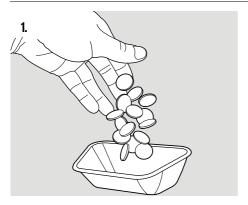

4. THE COUNTING PROCEDURE

COUNTING INSTRUCTIONS

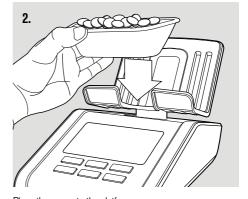

Note: Count one denomination at a time. For efficient counting, please make sure that coins or banknotes have been sorted beforehand. Always use the coin cup when counting coins.

4.1. COUNTING COINS

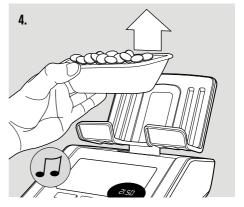

Place the coins in the supplied coin cup.

Place the cup onto the platform.

The quantity and value of the coins will be displayed. When the device has finished the count, a 'beep' will sound.

Take the cup from the platform. The counting result will be added to the total. A 'beep' will sound to confirm.

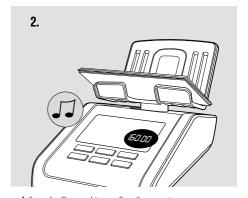

The 6165 will automatically switch to the next coin denomination. Alternatively, use the buttons to select a denomination. After the highest value coin denomination has been counted, the 6165 will automatically switch to the lowest value banknote denomination.

4.2. COUNTING BANKNOTES

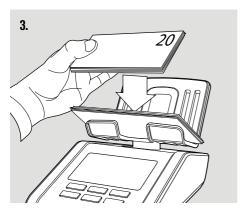

A 'beep' will sound to confirm the count.

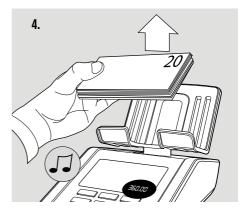

Old and new versions of EURO banknotes do not have to be separated before counting. Please note the following:

• First batch that is placed should contain max. 10 banknotes

• Following batches should contain max. 15 banknotes

Leave the first stack on the money platform and add the next stack of the same denomination. Continue adding stacks until all banknotes of the selected denomination have been counted.

Remove all banknotes at once from the platform. A 'beep' will sound to confirm and their value will be added to the total. The 6165 will automatically switch to the next banknote denomination.

5. When too many banknotes have been placed on the platform, or an illogical weight has been detected, the 6165 may not be able to determine the correct amount of banknotes on the platform. The following messages may appear:

"REMOVE SOME":

remove a few banknotes from the platform until the 6165 has been able to determine the correct amount of banknotes. Continue to add more banknotes on the platform in small batches. remove as many banknotes from the platform as suggested until the 6165 has been able to determine the correct amount of banknotes. Continue to add more banknotes on the platform in

"REMOVE X - Y PCS":

small batches.

FNDING A COUNT

VIEW CURRENT COUNT RESULTS

CLEAR COUNT RESULTS

To clear the results for the denomination which is displayed, press CE When you want to clear the complete count, start a new count as described in the menu items.

PRINT COUNT RESULTS

When you finished counting, you can print the results on the Safescan TP-230 printer, as described in the menu items.

EXPORT COUNT RESULTS TO SAFESCAN MCS

Run the Money Counting Software on your PC and click on the Count Data icon to download the count data from the 6165 to the software. For more details, see the user manual of the Safescan Money Counting Software, which can be found on www.safescan.com.

STARTING A NEW COUNT

To start a new count, press MENU . The display will show **NEW COUNT**. Press OK to confirm.
