

50

UV COUNTERFEIT DETECTOR

IDENTIFY BANKNOTES' UV SECURITY FEATURES

Every modern banknote has integrated UV security features that only show up under ultraviolet light at a certain frequency. The Safescan 50 is designed specifically to help you verify these features and identify potentially counterfeit banknotes. The Safescan 50 not only reveals the integrated UV security features in modern banknotes; it also instantly illuminates the UV security features built into today's credit cards, passports and other ID documents, as well as UV ink applied to protect valuable items from theft or confirm event admission.

- Powerful 9W UV lamp
- Suitable for all currencies
- Verifies credit cards and other official ID documents
- Verifies the UV features in banknotes
- Reflector for extra powerful UV light quality
- With warm start technology for 3x longer lamp life

VERIFIES UV FEATURES OF BANKNOTES - SUITABLE FOR ALL CURRENCIES
