1 General Information and Warnings

1.1 About this Manual

This manual is divided into chapters by the chapter number and the large text at the top of a page. Subsections are labeled as shown by the 1 and 1.1 headings shown above. The names of the chapter and the next subsection level appear at the top of alternating pages of the manual to remind you of where you are in the manual. The manual name and page numbers appear at the bottom of the pages.

1.1.1 Text Conventions

Key names are shown in **bold** and reflect the case of the key being described. This applies to hard keys and onscreen or soft keys.

Displayed messages appear in ***bold italic*** type and reflect the case of the displayed message.

1.1.2 Special Messages

Examples of special messages you will see in this manual are defined below. The signal words have specific meanings to alert you to additional information or the relative level of hazard.

CAUTION!

This is a Caution symbol.

Cautions give information about procedures that, if not observed, could result in damage to equipment or corruption to and loss of data.

NOTE: This is a Note symbol. Notes give additional and important information, hints and tips that help you to use your product.

1.2 Safe Handling of Equipment with Batteries

CAUTION: *Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer's instructions.*

ATTENTION: *Il y a danger d'explosion s'il y a remplacement incorrect de la batterie, remplacer uniquement avec une batterie du même type ou d'un type équivalent recommandé par le constructeur. Mettre au rebut les batteries usagées conformément aux instructions du fabricant.*

1.3 Safety Guide

For the best performance and precise measurement

- Do NOT overload scale. This will damage the loadcell and void warranty.
- Do NOT leave a load on the scale when not in use. This will decrease scale's accuracy and shorten the loadcell life.
- Inspect shackle and hook before using. Check clips, pins and screws regularly.
- Check battery frequently. When scale display flashes, charge battery with its dedicated charger.
- Rotate the load rather than scale if needed.
- Hang scale while in storage in dry and well-ventilated room. Do NOT place the scale directly on the ground.
- Do NOT attempt to repair the scale yourself. Contact your local representative.

1.4 Routine Maintenance

IMPORTANT: *This equipment must be routinely checked for proper operation and calibration. Application and usage will determine the frequency of calibration required for safe operation.*

1.5 Training

Do not attempt to operate or complete any procedure on a machine unless you have received the appropriate training.

To avoid the risk of RSI (Repetitive Strain Injury), place the machine on a surface which is ergonomically satisfactory to the user. Take frequent breaks during prolonged usage.

1.6 Sharp Objects

Do not use sharp objects such as screwdrivers or long fingernails to operate the keys.

1.7 FCC and EMC Declarations of Compliance

United States

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Canada

This digital apparatus does not exceed the Class A limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications.

Le présent appareil numérique n'émet pas de bruits radioélectriques dépassant les limites applicables aux appareils numériques de la Classe A prescrites dans le Règlement sur le brouillage radioélectrique édicté par le ministère des Communications du Canada.

European Countries

WARNING: This is a Class A product. In a domestic environment, this product may cause radio interference in which the user may be required to take adequate measures.

1.8 Declaration of Conformity

Brecknell is part of Avery Weigh-Tronix
 Foundry Lane, Smethwick, West Midlands, B66 2LP, England

	Declaration of Conformity Verklaring van Overeenstemming Déclaration de Conformité	Konformitätserklärung Dichiarazione di conformità Declaración de Conformidad
--	---	---

Manufacturer	Avery Weigh-Tronix	
Type	Brecknell BCS-1000, BCS-3000, BCS-5000	
Serial No.	101400001 Onwards	
The machinery fulfills all the relevant provisions of the Machinery Directive 2006/42/EC ¹		
The equipment additionally corresponds to the requirements of the following EC directives:		
EMC Directive	2004/108/EC	
Low Voltage Directive	2006/95/EC	
The applicable harmonised standards are:		
EN61000-6-1:2007 EN 60204-1:2006 +A1:2009+AC:2010	EN 61000-6-3 : 2007	
Note ¹ : A copy of the Technical File for this equipment is available from M.S. Williams at the address below.		
ITW Ltd trading as Avery Weigh-Tronix Foundry Lane, Smethwick, West Midlands, B66 2LP, England Reg. Office: Admiral House, St Leonards Road, Berkshire SL4 3BL, England Registered in England No. 00559693		

Fabrikant	Avery Weigh-Tronix	
Type	Brecknell BCS-1000, BCS-3000, BCS-5000	
Serialnummer	Vanaf 101400001	
De machine voldoet aan alle relevante bepalingen van de Richtlijn inzake machines 2006/42/EC ¹		
Bovendien voldoet de apparatuur aan de vereisten van de volgende EU-richtlijnen:		
EMC Richtlijn	2004/108/EG	
Laagspanningsrichtlijn	2006/95/EG	
Toegepaste geharmoniseerde normen:		
EN61000-6-1:2007 EN 60204-1:2006 +A1:2009+AC:2010	EN 61000-6-3 : 2007	
N.B. ¹ : Een kopie van het technisch bestand voor deze apparatuur is verkrijgbaar van M.S. Williams op het onderstaande adres.		
ITW Ltd trading as Avery Weigh-Tronix Foundry Lane, Smethwick, West Midlands B66 2LP, England. Reg. Kantoor: Admiral House, St Leonards Road, Berkshire SL4 3BL, England. Geregistreerd in Engeland nr. 00559693		

Fabricant	Avery Weigh-Tronix	
Type	Brecknell BCS-1000, BCS-3000, BCS-5000	
Numéro de série	A partir de 101400001	
La machine remplit l'ensemble des spécifications du cahier des charges de la Directive relative aux machines 2006/42/CE ¹		
L'équipement répond également aux exigences des directives CE suivantes :		
Directive CEM	2004/108/CE	
Directive Basse Tension	2006/95/CE	
Les normes harmonisées applicables sont :		
EN61000-6-1:2007 EN 60204-1:2006 +A1:2009+AC:2010	EN 61000-6-3 : 2007	
Remarque ¹ : Pour obtenir un exemplaire de la Fiche technique de cet équipement, s'adresser à M.S. Williams à l'adresse ci-dessous.		
ITW Ltd trading as Avery Weigh-Tronix Foundry Lane, Smethwick, West Midlands, B66 2LP, Angleterre Siège social : Admiral House, St Leonards Road, Berkshire SL4 3BL, Angleterre Enregistré en Angleterre sous le numéro : 00559693		

Hersteller	Avery Weigh-Tronix	
Typ	Brecknell BCS-1000, BCS-3000, BCS-5000	
Serialnummer	Ab 101400001	
Diese Maschine erfüllt die entsprechenden Bestimmungen der Maschinenrichtlinie 2006/42/EG ¹		
Darüber hinaus entspricht das Gerät den Anforderungen der folgenden EG-Richtlinien:		
EMV-Richtlinie	2004/108/EG	
Niederspannungs Richtlinie	2006/95/EG	
Die angewendeten harmonisierten Normen sind:		
EN61000-6-1:2007 EN 60204-1:2006 +A1:2009+AC:2010	EN 61000-6-3 : 2007	
Anmerkung ¹ : Eine Kopie der technischen Unterlagen für dieses Gerät kann von M.S. Williams bei der unten stehenden Adresse angefordert werden.		
ITW Ltd trading as Avery Weigh-Tronix Foundry Lane, Smethwick, West Midlands, B66 2LP, England Reg. Office: Admiral House, St Leonards Road, Berkshire SL4 3BL, England Registered in England No. 00559693		

Produttore	Avery Weigh-Tronix	
Modello	Brecknell BCS-1000, BCS-3000, BCS-5000	
N. di serie	A partire da 101400001	
L'apparecchio rispetta tutte le disposizioni rilevanti della Direttiva Macchine 2006/42/CE ¹		
Inoltre, l'apparecchio è conforme a tutti i requisiti delle seguenti direttive CE:		
Normativa EMC	2004/108/CE	
Normativa per la bassa tensione	2006/95/CE	
Le norme standard armonizzate e nazionali applicate sono:		
EN61000-6-1:2007 EN 60204-1:2006 +A1:2009+AC:2010	EN 61000-6-3 : 2007	
Nota ¹ : Una copia della scheda tecnica di questo apparecchio è disponibile presso M.S. Williams, all'indirizzo seguente.		
ITW Ltd trading as Avery Weigh-Tronix Foundry Lane, Smethwick, West Midlands, B66 2LP, England Sede legale: Admiral House, St Leonards Road, Berkshire SL4 3BL, England N. iscrizione al registro delle imprese inglese: 00559693		

Fabricante	Avery Weigh-Tronix	
Tipo	Brecknell BCS-1000, BCS-3000, BCS-5000	
Número de serie	A partir del 101400001	
La máquina cumple con todas las disposiciones pertinentes de la Directiva 2006/42/CE relativa a las máquinas ¹		
Además, el equipo satisface los requisitos de las siguientes directivas CE:		
Directiva CME	2004/108/CE	
Directiva de baja tensión	2006/95/CE	
Las normas armonizadas en vigor son:		
EN61000-6-1:2007 EN 60204-1:2006 +A1:2009+AC:2010	EN 61000-6-3 : 2007	
Nota ¹ : Puede solicitarse a M.S. Williams una copia del expediente técnico correspondiente a este equipo en la dirección que se indica.

2 Introduction

2.1 Features

This scale is a combination of sound and proven mechanical design, using the most advanced electronics and provides a superb feature set. It is versatile, reliable, accurate and easy to operate.

- Superb Quality - Chinese GB/T11883-2002 national standards, and European CE directives.
- Great Safety - Aluminum-casting case, high firm hook and shackle, dedicated weighing loadcell for safety installation.
- Strong Reliability - Cutting-edge technology, quality integrated circuit for high performance and long time stability.
- Broad Applicability - Popular and applicable in storage, textile, metal, material industry.
- Easy to Use - Ultra-red remote controlling design. Easy to operate on the scale or in distance.
- Complete Function - Resolution switch, unit conversion, auto power-off, battery inspection, etc.

2.2 Specifications

Accuracy Class	Chinese GB/T 11883-2002 Class III
Tare Range	100% F.S.
Zero Range	4% F.S.
Stable Time	≤10sec
Overload	100% F.S. + 9e
Safety Load	150% F.S.
Ultimate Load	400% F.S.
Battery	6V/4.0Ah lead acid rechargeable battery
Charger	100~250VAC 50/60Hz input 7.2VDC/1000mA output
Display	35mm (1.4inch) LED module
Operating Temp.	-10°C ~ +40°C
Operating Humidity	20°C ≤90%

2.3 Capacity

Model	Maximum Capacity	Minimum Capacity	Resolution	Division
BCS-1000	1,000kg (2,000 lb)	10kg (20 lb)	0.5kg (1 lb)	2,000
BCS-3000	3,000kg (6,000 lb)	20kg (40 lb)	1kg (2 lb)	3,000
BCS-5000	5,000kg (10,000 lb)	40kg (80 lb)	2kg (5 lb)	2,500

2.4 Dimensions and Weight

Model	A	B	C	L	Net Weight
BCS-1000	68mm (2.67")	112mm (4.41")	40mm (1.60")	420mm (16.54")	11.0kg (24.25 lb)
BCS-3000	68mm (2.67")	112mm (4.41")	40mm (1.60")	420mm (16.54")	11.0kg (24.25 lb)
BCS-5000	68mm (2.67")	112mm (4.41")	45mm (1.77")	450mm (17.71")	12.5kg (27.56 lb)

2.5 Display and Keys

2.5.1 Scale Keys

Keys	Key Name	Function
	On/Off	Press 1s to power on/off scale Return to weighing mode
	Zero	Manual Zero Increase flashing digit
	Tare	Tare in/out Right scroll flashing digit
	Hold	Lock/unlock reading Confirm

2.5.2 Remote Keys

Keys	Key Name	Function
	Zero	Same as 
	Tare	Same as 
	Hold	Same as 
	Accumulate	Accumulate weight Decrease flashing digit
	Delete	Delete last weight Clear all weight Left scroll flashing digit
	F1	View Input decimal point
	F2	Unit switching
	Off	Press 1s to power off Return to weighing mode
	2nd	2nd function.

2.5.3 Display Annunciators

Annunciator	Name	Note
STB.	Stable	lit when weight is stable
ZERO	Zero	lit when weight is at zero
TARE	Tared	lit when scale is tared
HOLD	Hold	lit when scale weight is locked
lb	lb	lit when unit is lb
kg	kg	lit when unit is kg

2.5.4 Displayed Messages

Message	Description	Note
-----	detect weight	
?	in Idle Mode	
Setup	SETUP	User Setup Menu
Bat??	BATtery	battery life percentage
P0000	Password	in Password Mode
end	END	save and exit
off	OFF	power off
over	OVERload	overloading
2nd	2ND	2nd function
err	ERRor	invalid operation
acc	ACCumulate	accumulate weight
del	DELeTe	delete last weight
Clr	CLeaR	delete all weight

3 Operation

3.1 Power On/Off

1. Press  for 1 second to power-on scale.

Scale performs initialization and power-on test, ***** shows twice. Next the display shows the capacity, battery life percentage, weight detection, and then auto zero.

NOTE: For information about Auto-Zero, refer to Scale Configuration in Technical Manual.

2. Press  or  for 1 second to power-off scale.

Battery life percentage **bat90** is displayed, off message **|off|** is displayed, and then the power turns off.

3.2 Zero

- Press  or  to zero. The ZERO light will turn on.

If load is in motion, tared, or out of Manual-Zero Range, **|err|** is displayed.

NOTE: For information about Manual-Zero Range, refer to Scale Configuration in Technical Manual.

3.3 Tare In/Out

1. In gross mode, press  or  to tare in. TARE light will turn on.

If load is in motion, negative value, or out of Tare Range; **|err|** is displayed.

*NOTE: Tare will reduce the apparent overload range of scale. For example, if a 5000*2kg scale has a 1000kg container as its tare, the scale will overload at a new weight of 4018kg (5000 - 1000 + additional 9 divisions).*

2. In net mode, press  or  to tare out. TARE light will turn off.

3.4 Lock / Unlock

1. Press  or  to lock screen. HOLD light will turn on.
2. Press  or  to unlock screen. HOLD light will turn off.

3.5 Accumulate

Press  to accumulate current weight.

|acc| is displayed, indicating weight is accumulated. Scale uses displayed weight, so gross or net weight is added into the same accumulator.

If load is in motion, or negative, or does not return to zero before, **|err|** is displayed.

3.6 View

1. Press  to enter View mode.
Display flashes accumulated weight.
2. Press  or  to view high 5-digit or low 5-digit.
3. Press  or  to exit View mode.

3.7 Delete Last Weight

Press  to delete last accumulated weight.

|del| is displayed, indicating last accumulated weight is deleted. The Delete function will only delete the last weight.

If last accumulated weight has been deleted, **|err|** is displayed.

3.8 Clear All Weight

Press  first and then press  to clear all accumulated weight.

|clr| is displayed, indicating all weight is cleared.

3.9 Unit Switching

Press  to switch unit in between kg, lb, and User Unit.

When unit is kg, kg LED light on. When unit is lb, lb LED light on. When unit is User Unit, kg and lb all lights are off.

NOTE: For more information about User Unit, refer to Scale Configuration in Technical Manual.

4 User Menu

4.1 Access User Setup Menu

Press  first and then press  or  to enter User Setup menu. **Setup** is displayed.

4.2 Parameters

4.2.1 Auto-Off Timing

1. Press  or  to enter Auto-Off Timing. **off??** is displayed.
2. Press  or  and  to change timing value.

Auto-Off Timing can be set to: 0(disabled), 5(5min), 10(10min), 15(15min), 30(30min), 60(60min). It is disabled by default.

NOTE: Auto-Off function maximizes scale's battery life. Auto-Off starts countdown timer when there's no action or load is stable. Any key pressing or motion in load restarts countdown timer.

4.2.2 Display Brightness

1. Press  or  to enter Display Brightness. **br||?** is displayed.
2. Press  or  and  to change brightness value.

Display Brightness can be set to: 1(dim), 2(normal), 3(bright).

NOTE: Dim LED brightness saves battery power dramatically.

4.2.3 Idle Mode Timing

1. Press  or  to enter Idle Mode Timing. *idl??* is displayed.
2. Press  or  and  to change timing value.

Idle Mode Timing can be set to: 0(disabled), 5(5sec), 10(10sec), 15(15sec), 30(30sec), 60 (60sec). It is 30sec by default.

To maximize battery life, scale automatically enters Idle Mode, when there's no action or the load is stable. In Idle Mode, scale works in low-power consumption status. Any key pressing or motion in load wakes up scale from Idle Mode.

3. Press  or  to exit User Setup.

5 Loading Procedures

The following drawings illustrate how to load and how not to load the crane scale.

5.1 Correct Loading

Use hardware that creates single point attachments. Refer to Figure 5.1.

Figure 5.1 Correct Crane Scale Loading

5.2 Incorrect Loading

The following drawings demonstrate incorrect crane scale loading.

- DO NOT attach oversized interface! Refer to Figure 5.2.

Figure 5.2 Oversized Interface Attachment

- DO NOT push/pull on loaded scale or directly on hook! Refer to Figure 5.3

Figure 5.3 Side Stress on Hook

- DO NOT use multiple attachments! Refer to [Figure 5.4](#).

Figure 5.4 Multiple Attachments

6 Maintenance and Troubleshooting

6.1 Battery Maintenance

To maximize battery life, please note the following battery maintenance guide.

- This scale is powered by a 6V4.0Ah rechargeable lead-acid battery.
- Battery is permanently fixed inside battery housing.
- Depending on LED brightness and idle mode setting, the battery works from 60 hours to 200 hours.
- In order to conserve battery life, enable Auto-Off and Idle Mode, dim LED brightness.
- Charging time for a completely discharged battery is approximately 12 hours.
- To obtain maximum service life, battery should be stored between -20° (-4°F) and +50° (122°F). Stored batteries should be recharged every three months.
- During charging, green LED indicates full of power, while red indicates the battery is still charging.

6.2 Troubleshooting

Simple problems can be resolved from the table below solution. If problems still exist, please contact your local representative.

Symptom	Possible Cause	Suggested Solution
not power-on after On/Off is pressed	discharged / defective battery	check battery and charge
	defective On/Off key	press harder and keep pressing 2s
	defective power cable	open front panel, check power cable
	defective mainboard	contact representative
display flashes	discharged battery	charge battery
no action taken after key pressed	scale is disturbed	re-plug power cable
	defective key	contact representative
weight reading not stable	load in motion	keep load stable
	weak Anti-Motion	change Anti-Motion level
	damped loadcell or mainboard	dry loadcell or mainboard
	defective mainboard	contact representative
weight reading not zero when no load	discharged battery	charge battery
	load-cell stressed too long	hang scale in storage
	discharged battery	charge battery

Symptom	Possible Cause	Suggested Solution
large error in weight reading	scale not zeroed before applying load	manual Zero scale before loading
	wrong unit	switch to correct unit
	scale requires calibration	calibrate scale
	defective loadcell or mainboard	contact representative
battery can not be recharged	defective charge board	contact representative
	defective battery	contact representative
short remote control distance	discharged / defective remote battery	replace remote control batteries
